

## Water Testing Requirements under the FSMA Produce Safety Rule

Monday, April 15, 2019 | 1:00 – 2:00 pm ET

### DESCRIPTION

According to the Food Safety Modernization Act (FSMA) Produce Safety Rule, fresh produce and sprout growers are required to test samples of agricultural water and spent sprout irrigation water respectively. Join this webinar to learn how testing requirements for these water samples may be different from those of more traditional laboratory clients; regulatory sampling and water quality requirements that apply; and acceptable analysis methods

### OBJECTIVES

At the conclusion of the program, the participant will be able to:

- Provide an overview of water sampling requirements for fresh produce farms and sprout operations under the FSMA Produce Safety Rule.
- Describe regulatory water quality requirements written into the Produce Safety Rule.
- Specify acceptable methods of analysis for agricultural water and spent sprout irrigation water.
- Answer questions that might help participants better understand and address water sampling and analysis needs of the fresh produce and sprout industries.

### FACULTY

- **Don Stoeckel, PhD**, Midwest Regional Extension Associate, Produce Safety Alliance
- **Kaiping Deng, PhD**, Co-Lead and Coordinator, Sprout Safety Alliance

### AUDIENCE

This program is intended for water analysis laboratory personnel, or anyone else involved in sampling and analysis of agricultural water samples

**Course # 100-613-19**

### Participation is easy!

All that you need is a high speed Internet connection to access [ZOOM](#), the program site. To get started, check out the Top Questions section of the [FAQ](#) page.

The [Association of Public Health Laboratories \(APHL\)](#) sponsors educational programs on critical issues in laboratory science.

**For a complete list of APHL courses visit [www.LaboratoryTraining.org](http://www.LaboratoryTraining.org)**

from fresh produce farms and spent irrigation water from sprout operations. The intended audience could include public health and private laboratory scientists, federal, state and local health and environmental officials and practitioners, and other organizations that engage with and support analytical needs for the fresh produce and sprout industry.

### REGISTRATION — REGISTER NOW!

- Registration is free!
- Site facilitator must register online at [https://aphl.zoom.us/webinar/register/WN\\_MbkxhOHKSAu39QncTeSjNQ](https://aphl.zoom.us/webinar/register/WN_MbkxhOHKSAu39QncTeSjNQ) Having difficulty with the online registration process? Please email [registrar@aphl.org](mailto:registrar@aphl.org) or call 240.485.2727 from 8:00 am to 4:30 pm ET.
- For program content information, please email [webinar@aphl.org](mailto:webinar@aphl.org).
